STATEMENT BY PGCAR PRESIDENT YOLANDA MUCKLE

"We, the members of the Prince George's County Association of REALTORS® (PGCAR), are deeply saddened and dismayed by the horrific events that led to the death of George Floyd while in police custody in Minneapolis on Memorial Day. We join our colleagues locally and across the nation by offering our heartfelt condolences to Mr. Floyd's family, and urge that justice be served on the perpetrators of this heinous crime.

Our association serves one of the most diverse counties in the United States, and our membership is comprised of people representing numerous ethnic groups and cultures. Each day, we work to ensure our clients receive fair and equal treatment throughout the home buying and selling process, so the actions of those four former officers was nothing short of abhorrent.

It is our sincere hope and prayer that all Americans across the United States will rally together to eradicate these injustices on human life."
